Carnivore Care

A nutritionally-complete, assist-feeding formula for carnivores

Carnivore Care is a premium recovery food which can be given to carnivores with poor nutritional status resulting from illness or surgery. This specially formulated product contains beneficial omega fatty acids and easily digestible proteins derived from premium quality egg and poultry sources to support nutrient absorption and optimize energy levels.

Clinical Applications:

- Malnutrition
- Severe weight loss
- Appetite stimulant
- Gastric ulcers
- Insulinoma
- Cancer nutritional support
- Gastroenteritis
- Heart disease
- Pancreatitis
- Pre- & post-surgery
- Colitis
- Hepatic and Renal disease
- Medication carrier

Ingredients:

Dried Whole Egg, Poultry Meal, Fish Oil, Tricalcium Phosphate, Silicone Dioxide, Calcium Carbonate, Choline Chloride, Biotin, Taurine, Hydrolyzed Yeast, Sodium Benzoate, L-carnitine, L-Ascorbyl-2-Monophosphate, Vitamin E Supplement (tocopherol), Zinc Sulfate, Niacin Supplement, Potassium Iodide, Manganese Sulfate, Vitamin B₁₂ Supplement, Pyridoxine Hydrochloride, Copper Sulfate, Riboflavin, d-Calcium Pantothenate, Thiamine Mononitrate, Vitamin A Supplement, Folic Acid, Vitamin D₃ Supplement

Feeding Methods:

Assist-feeding:

Syringe

Prepare a thin paste in a mixing bowl. Scoop the paste into the syringe, from which the plunger has been removed. Replace the plunger and slowly administer the recommended dose.

Assist-feeding:

Spoon

Mix a thick paste and offer it to the pet from a spoon.

Self-feeding:

Bowl

As the patient recovers, it may not be necessary to continue assist-feed. Mix a thick paste and place it in a bowl.

Self-feeding:

Top dressing

When the pet is ready to return to its normal diet, add either wet or dry Carnivore Care as a top dressing to improve food flavor and stimulate the pet's appetite.

Size	UPC
70 gram	744845-701073
340 gram	744845-405322

Adding convenience to care

PROFESSIONAL LINE

Suggested Storage:

Store in a cool, dry location. Discard any remaining mixed product after 24 hours. Refrigerate opened packet for up to 7 days.

Directions for Use:

Divide dry product into 2-4 feedings unless specified by your veterinarian. Prepare fresh at each feeding. Mix 2 parts Carnivore Care with 1 part warm water. The volume of water may be adjusted depending on feeding method.

* 1 Tbsp is equal to approximately 4 grams.

Dosage Guidelines:

These are meant as guidelines. Individual needs will vary with species, age, genetics, activity level, nutritional condition and medical condition. Consult with a veterinarian for specific directions.

Avian: Raptor
